**ANNEXURE- VI****MANAGEMENT DISCUSSION AND ANALYSIS****Industry Structure and Developments**

The year 2016-17 has been a challenging year for Indian Economy. The economy grew 7.1% in the year 2016-17 and it is expected that with the several Economic Reforms initiated by the Central Government will give a boost to the Economy. We expect that economic reforms will have a positive impact on the Economy as a whole.

To give further impetus to the economy, Central Government decided to implement the biggest Economic/ Tax reform in the form of Goods and Services Tax (G.S.T) w.e.f. 1 July, 2017. Initially there were some problems in the implementation of the scheme especially in small & Medium Enterprises but once the initial hiccups related to G.S.T. implementations are resolved, it would smoothen the taxation structure under G.S.T.

Now, the Company will be paying only one tax i.e. (G.S.T) instead of three taxes i.e. Sales Tax, Excise Tax and Service Tax. Your Management is quite optimistic that in long term, G.S.T would have a favorable impact on packaging industry.

Industry Structure and Developments

Biaxially Oriented polypropylene (BOPP) films, a part of flexible packaging industry has emerged as one of the most popular high growth films in the world over a period of time. It plays a vital role in protecting, extending and improving hygiene quotient and shelf life of the end products ranging from biscuits, drugs, medicines, processed and semi-processed foods, vegetables, edible oils, etc. BOPP Films have become a preferred choice over various other substitutes available in the market like plastics, waxed papers and aluminum foils because of its characteristics of better shrinkage, stiffness, transparency, salability, recycleability etc. BOPP films are widely used in food packaging, as these offers high barrier properties and are cost- effective and durable.

Presently BOPP Films Industry Market set for Rapid Growth, to reach USD 15.55 Billion by end of 2020, expanding at a CAGR of 6.30% between 2015 and 2020 (*Source: Market Research Store*). This growth is

expected to fuel BOPP industry, as this thermoplastic BOPP films possesses excellent strength and clarity, owing to which it is used extensively for packaging applications. Due to the revival of Global economies will push the demand further. Global demand is increasing because of growth prospects in Asia particularly in China, India and Indonesia. Today China, India and Middle East are the major players in the BOPP market. China is posing a great challenge to the Indian BOPP Industry because of its planned capacity.

Your Company has already established an ultra modern BOPP Film Project with a capacity of 30000 tpa, in the state of Madhya Pradesh. The Company is selling its products in domestic as well as export markets and has established its brand. The Company has performed reasonably well during the year under review. We assure you that continuous efforts will be made to further improve the performance of the Company.

Opportunities and Threats

The growing sale of packed food and rapid growth of retail market has enabled the BOPP film industry to register a reasonable growth. It has become a mature sector for various associates involved such as processors, packaging manufacturers, raw material suppliers and end-user industries which include personal/domestic care products, manufactures of food & beverages and pharmaceuticals etc. The growth in convenience foods packaged in BOPP films such as fruits and vegetables, salads, snacks and confectionery shall pave the growth of the Retail market of the flexible packaging industry. Though increased consumption in food packaging and large growth in textile packaging is also giving a huge opportunity to BOPP film Industry to increase its size / share.

Besides the new applications of BOPP films, apart from conventional Tape/Textile and food packaging market, are emerging which full further improve the prospectus of the industry. The enormous untapped market for BOPP Films in emerging economies is also expected to offer growth opportunities to BOPP film Industry. The rapid urbanization, increasing health consciousness, changing food habits of people, who prefer packed foods, the demand of BOPP Films is going to rise in domestic as well overseas markets. The changing

demographic trends with the growth in the organized retailing will further push the BOPP Film Industry.

Besides the yield advantage of BOPP Films over polyester films have also had its impact in driving the market to shift from polyester films to BOPP Films. The large converters have already started working in this direction. This will give further impetus to growth of flexible packaging and will translate into new business opportunities for Industry.

In India through flexible packaging segment is growing but the per capita consumption is still very low as compared to the developed countries like US and European Union. Though the BOPP Films industry continued to witness growth on account of favorable demographic and market factors but it is not immune from normal business threats and challenges. We would like to inform you that company's product demand is sensitive to changes in industry capacity and output level, changes in consumer demand and the status of economic conditions. Because of the competitive plastic films business, company faces stiff competition both from international as well as domestic manufactures. The Environmental issues related to BOPP film production are expected to limit the growth of this industry.

The industry continues to be plagued by the problems of over capacity, short term over supply as well as raw material prices. Any significant change in the said factors will impact the performance of the Industry. Any increase in the raw material prices and fall in finished good product prices may affect the performance of the company.

Segment wise or product wise performance

The disclosure requirements of Accounting Standard 17, issued by the Institute of Chartered Accountants of India are not applicable as the main business activities of the company fall under single segment.

Future Outlook

Your management expects that the future outlook of the BOPP Films industry seems to be reasonably good as the growth driver of the yester years are still present in the Asian markets especially India. This will give a further push to the demand for the BOPP Films. The phenomenal growth of retail segment coupled with

economic growth of the Country is expected to influence of flexible packaging industry favorably. With the coming of new segment of liquid packing which includes flexible pouches, tetra packs, coated products etc, the company finds new business opportunities to grow. Your company is looking at the future with optimism and shall be expanding its business activities into new areas, in due course of time so that it can make use of available opportunities and emerge as fully integrated flexible packaging company.

In addition to the above, the applications of the BOPP Films in other No-food packaging is also gaining strength which will further boost the demand for BOPP Films Numerous grades of BOPP films are under development for various applications in different parts of the world which should give good volumes to the Industry. Thus it is evident that BOPP films is going to be one of the high-growth segments in the global plastic films and sheet industry.

Risk and Concerns

The company's main source of income will be from selling of BOPP films, a substrate in packaging material in plain and metalized form to further converters. Any adverse impact on the operations of the packaging converters may impact the company's revenues and its profitability. Likewise the business economic cycle can also affect the fortune of the company in both ways.

Besides the major component of cost involved in the making of flexible packaging is raw material "Polypropylene" Any changes in the raw material prices and fall in finished goods prices may affect the performance of the company. The Company will continue to focus on cost control and cost effective measures. The Company has endeavored to monitor and mitigate these risks.

Annexure - B to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Nahar Poly Films Ltd ("the Company") as of 31 March 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention

and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of

management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE-A TO THE AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31 March 2017, we have audited the internal financial controls over financial reporting of **Nahar Poly Films Limited** ("the Holding Company") and its associate company, as of that date.

Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company and its associate company are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was

established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its associate company have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.
